THE MOST SECURE

TRITON

THREE-POINT LOCKING SYSTEM

RILSAN®

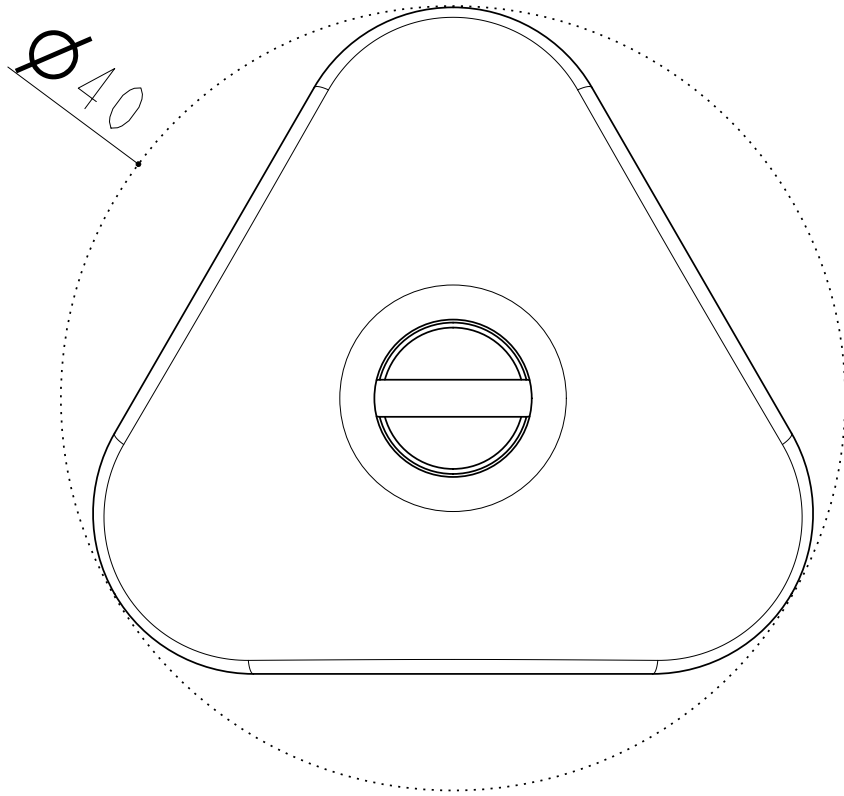

Advanced protection designed for users seeking a reliable and structurally robust security system. TRITON ensures an internal multipoint locking mechanism, ideal for those requiring total protection against break-in attempts. Thanks to its three-point locking system, the device provides solid anchoring and high resistance to tampering, while preserving the vehicle's aesthetics.

TECHNICAL SPECIFICATIONS:

- Internal locking mechanism with up to 3 locking points
- Tailgate installation with drilling
- Automatic locking
- Fixed housing
- Emergency release via internal handle
- Hardened steel housing 52-52 with Rilsan coating
- 15-pin cylinder with 100,000 key combinations
- Anti-theft device with anti-drill cylinder protector
- Flat key in nickel silver
- Dimensions Ø 78 × h 10 mm
- Installation time: 40 minutes per fixing point
- Patented
